The Cattle competitions at the Perth Royal Show are some of the oldest competitions held at the Showground and considered to be among the most prestigious in Australia. They benchmark industry excellence and reward the achievements of Western Australian cattle breeders. The program includes breed judging, junior judging and a commercial auction.

20. Weighing

Weighing of Exhibits will take place on Saturday, 26 September from 7.30am.

It will be the responsibility of the Exhibitor that their Exhibit has been weighed, and tattoo inspected on Higham Park.

21. Verification / Inspection of Type, Description and Eligibility

Each appointed Inspector shall submit a complete report of their findings to a Royal Agricultural Society of WA representative immediately after the completion of the inspection or examination as follows:

- A. In the case of purebred Beef cattle, the inspections are to be done at the time of weighing and scanning;
- B. All female Exhibits will be inspected in conjunction with the bulls, either via the crush or a clipping frame; and
- C. Inspectors will report any animal which was not available for inspection.

Each Inspector may report in respect of each animal, whether or not in their opinion:

- A. the animal is true to type;
- B. the animal is of such description or merit as to be a worthy Exhibit in the class(es) in which it is entered;
- C. the animal bears all the markings whether in the nature of colour or tattoo fire, freeze, NLIS or otherwise attributed to it in the application for entry and does not bear any marking not attributed to it in such application;
- D. the animal is presented in its natural colour conformation;
- E. the animal shows any indication that its age is other than that declared on the application for entry;
- F. the animal appears to be barren;
- G. the animal is suffering from or has any ailment, injury or infection;
- H. the animal is carrying any known genetic abnormality; or
- I. the animal is a grade animal and not purebred.

An Inspector may not be required to disclose, nor shall they disclose to the Exhibitor, the contents of their report. The Councillor in Charge, after considering each report, and after informing the relevant Exhibitor or their attendant of their conclusions, may disqualify the animal and/or require it to be removed from the Showground or may allow the animal to be paraded and judged.

The Royal Agricultural Society of WA may, if it is deemed necessary, cause such further inspection or examination of the animal to be made and may require that it be subjected to such tests as the Royal Agricultural Society of WA considers appropriate and in the light of all information so obtained, the Royal Agricultural Society of WA may declare:

- A. that the Exhibitor is guilty of unethical conduct; and/or
- B. that the animal is ineligible for exhibition or competition; or
- C. if the animal has already been exhibited or been judged, the Royal Agricultural Society of WA may declare forfeited and cancelled any award or placing made in respect of it and may cancel or withhold any evidence of success that may have been made or granted to the Exhibitor or in respect of the animal.

If the Royal Agricultural Society of WA declares that an Exhibitor is guilty of unethical conduct, the Royal Agricultural Society of WA may reprimand the Exhibitor and/or cancel all or any of their entries and declare forfeited and cancelled any or all awards made or granted to them in respect of all or any of their Exhibits and/or may decline to accept any future application on their part to exhibit or compete at the current Show or future Perth Royal Shows.

The Royal Agricultural Society of WA shall not be bound to give any reason for any determination or declaration made or act done pursuant to this section condition and such determination, declaration or act shall be final and binding upon all persons affected thereby.

An animal entered for exhibit including calves over the age of three (3) months must be tattooed in the ear with a legible permanent ink impregnated tattoo as shown on the registration certificate or cattle breed society record. Such an animal not having a clear legible tattoo shall be deemed ineligible for exhibition. NLIS is not accepted as a permanent form of identification and may not be used as a form of identification. Exhibitors are encouraged to check their tattoo prefix is visible and correct before transporting animals to the Show.

As an alternative to a legible tattoo, cattle may be identified by a clearly legible freeze brand which corresponds to the registration certificate or other relevant breed Society records. It remains the responsibility of the Exhibitor to ensure that all identification is legible and verifiable upon inspection.

Holstein cattle will be examined for identification purposes by photograph.

Any animal, which cannot be identified via their tattoo and registration certificates, will not be permitted to be exhibited. The decision made by the Royal Agricultural Society of WA representative is final.

A calf born on or after 1 January 2026 and still sucking the mother can be exhibited as a calf at foot.

No Exhibit can compete in more than one (1) class except in group classes or where otherwise specified.

No Exhibit can compete in group classes unless it has been entered in a single pen class.

Dehorned Animals: An animal competing in any class shall not be penalised for the absence of horns unless otherwise specified by the relevant Breed Society.

Owners and Exhibitors are to note on the application for entry if cattle have been exposed to the HGP Trenbolone Acetate.

HGPs are not permitted.

24. Pestivirus (Bovine Viral Diarrhoea Virus)

All pure-bred Beef and Dairy cattle, and Led Steers and Heifers, may only be exhibited if tested for Pestivirus and certified as non-PI (Persistently Infected) cattle. Certification of testing and proof of non-PI status must be included with the application for entry in the form of a signed veterinary certificate or laboratory report listing each animal, their identification and result of testing. Testing results will be verified by the Royal Agricultural Society of WA.

25. Bovine Johne's Disease (BJD)

BJD is regulated under the *Biosecurity and Agriculture Management Act 2007* and its subsidiary legislation. It is a requirement of the law that any person who suspects or has reason to suspect BJD in an animal must notify the Department of Agriculture and Food WA so that further investigation can be undertaken.

Cattle will be penned according to breed and any application for individual wash bays must be presented to the Competition Supervisor by July 31 2026.

A completed Health Certificate for Movement of Stock to Western Australia (Form LB1), available from the Department of Agriculture and Food WA, must accompany each consignment of livestock en route into WA. It contains all entry requirements for livestock and is used to certify that livestock meet these requirements. For further information please contact the Department of Agriculture and Food WA or search the link for more details: <https://www.dpir.wa.gov.au>

29. Medication Control

The purpose of this section condition is to ensure that the normal performance of an animal during competition is not affected, either deliberately or unintentionally, by the influence of drugs and medications or by any form of veterinary treatment. No drugs, medication or veterinary treatment shall be administered to any animal exhibited in the Cattle section except under the direction of the Royal Agricultural Society of WA's Veterinary Officer, who shall advise the Royal Agricultural Society of WA representative if, in their opinion, such drug, medication or veterinary treatment is likely to have any effect upon the animal which would be material to its chance of being awarded a prize, and, in such case, the Royal Agricultural Society of WA representative may prohibit the animal from competing.

The Royal Agricultural Society of WA may make, or cause to be made, such test or tests of an animal as it shall deem necessary to determine whether such drug, medication or veterinary treatment has been administered to any animal which has been entered for, or has been exhibited in, any class or competition.

Random testing of Beef and Dairy cattle for prohibited substances (e.g. tranquillisers) may be carried out at the discretion of the Royal Agricultural Society of WA representative.

It is the responsibility of the Exhibitor to ensure that their Exhibits are led by suitably experienced persons that are capable of exercising control over the Exhibits whilst in the Judging Ring or during a Grand Parade. If, in the opinion of the Royal Agricultural Society of WA representative, any animal appears to be dangerous and not under proper control it must be removed from the Showground.

Bulls: All bulls over nine (9) months of age must have nose rings inserted in their noses and be led.

No bulls are to be moved about the Cattle Lanes unless properly restrained with nose holds.

All Beef animals are to be double tied in their cattle stalls at night by a halter and neck strap. **Complete chains are not permitted. This must be strictly adhered to.**

All Exhibits must be quiet to handle when brought before the Judge and no judging will be permitted outside the rings set aside for this purpose.

35. Dress For Grand Parades and Judging

Exhibitors must provide dustcoats for handlers during judging and the Grand Parade unless a Breed Society accepts other parading attire and notifies the Royal Agricultural Society of WA. An exception will be for handlers who are obtained from an organisation with an accepted uniform.

Breeds and Studs will be allowed to promote their cattle in the Cattle Lanes and stalls with advertising material, providing they obtain prior approval from the Competition Supervisor.

Only banners approved by the Royal Agricultural Society of WA sponsorship department will be displayed in the Cattle Judging ring at any time. Once all Royal Agricultural Society of WA sponsorship approved banners are set in place only then may breed societies display their banners.

There is to be no placement of breed banners or posters on the judging ring fencing. Any judging ring banner placement must be approved by the Competition Supervisor on or before Friday, 18 September 2026.

40. Departure of Exhibits

Beef Cattle may leave from Wednesday, 30 September 2026 after 6.00pm (vehicle access from 10.00pm).

Removal of Exhibits: Exhibitors must not remove any Exhibit from the Showground without a Livestock Release Authority form which will be issued to each Exhibitor and MUST be signed by a Royal Agricultural Society of WA representative or their nominee.

Exhibitors removing their cattle before the specified time without the authority of a Royal Agricultural Society of WA representative will automatically forfeit their prize money and will be prohibited from entering future Perth Royal Shows until a written application has been approved by the Royal Agricultural Society of WA.

The purpose of this section condition is to ensure that the normal performance of an animal during competition is not affected, either deliberately or unintentionally, by the influence of drugs and medications, or by any form of veterinary treatment. No drugs, medication or veterinary treatment shall be administered to any animal exhibited in this section except under the direction of the Royal Agricultural Society of WA's Veterinary Officer, who shall advise a Royal Agricultural Society of WA representative if, in their opinion, such drug, medication or veterinary treatment is likely to have any effect upon the animal which would be material to its chance of being awarded a prize, and, in such case, the Royal Agricultural Society of WA representative may prohibit the animal from competing.

The Royal Agricultural Society of WA may make, or cause to be made, such test or tests of an animal as it shall deem necessary to determine whether such drug, medication or veterinary treatment has been administered to any animal which has been entered for, or has been exhibited in, any class or competition.

Random testing of Led Steers and Heifers for prohibited substances (e.g. tranquillisers) may be carried out at the discretion of the Royal Agricultural Society of WA.

13. National Vendor Declaration (NVD/ Waybill)

Animals showing signs of fresh wounds or blood will be disqualified from competition.

Disqualified animals are still for sale but will not be judged on the hoof or hook.

Champion Interbreed Group Of Three

Part Three Carcass Competition

Carcasses will be judged within the general parameters of the MSA Competition System, which relies on the MSA Index and national grading standards.

Exhibitors are required to predict what carcass weight their Exhibit will be and ensure they have correct fat depths for that category.

The ideal fat depths for carcasses in the Carcass Competition are as follows for the different Weight Classes:

Weight Class	Optimum Subcutaneous Fat Depth	
	P8 site (mm)	Rib site (mm)
Light	5 – 12	4 -8
Medium	6 – 14	5 – 10
Heavy	8 – 16	6 – 12
Extra Heavy	8 – 22	6 - 14

Weight Class	Live Weight (Kg)	Carcass Weight (Kg)
Light	420 – 490	200 – 270
Medium	490.1 – 560	270.1 – 310
Heavy	560.1 – 630	310.1 – 340
Extra Heavy	630.1 – 700	340.1 - 390

1. All Exhibits will remain in the class to which they were assigned on the hoof i.e. a Lightweight Exhibit will be judged as a Lightweight Exhibit on the hook.
2. Weight penalty points will be applied to carcasses dressing under 200kg or over 390kg (at the rate of one carcass point per kg) as these carcasses are considered to have limited market suitability.
3. Carcasses will be judged within the assigned live weight category, however will not be penalised for higher yields.
4. Carcasses complying with the optimum fat depths for their Weight Class will achieve maximum points.
5. To receive MSA Index Eating Quality points all carcasses must meet minimum MSA standards **(see Points Allocation)**

Judging Criteria and Points Allocation	
Market Specifications	25 Points
P8 fat depth	(10)
Rib fat depth	(10)
Fat distribution	(5)
Penalties: Out of carcass weight range Significant (>score 4)	
Lean Meat Yield	35 Points
Calculation based on: Eye muscle area (EMA) Hot standard carcass weight (HSCW) Rib fat (RF)	
MSA Index	40 points
Calculation based on: Ultimate pH Ossification Tropical breed content Hump height Marbling (AUS-MEAT & MSA) Sex Scores will be scaled to deliver a maximum of 40 points for eating quality	
Total	100 points

Points Allocation:
Using the MSA Carcass Competition System.

To receive eating quality points, carcasses must meet the minimum MSA carcass specifications:

- Minimum of 3mm of rib fat
- Adequate fat distribution
- pH of 5.70 or less

Any carcasses which fail any of the above requirements will receive a score of 0/45 for eating quality.

The eating quality score will be highest in carcasses with low TBC, no HGP, low ossification and high marbling.
